

A Bainbridge Island resident of 43 years, Johnpaul Jones has enriched our community and historical awareness through his holistic approach to space design. Locally, he has earned the title of "Island Treasure" for his help in designing the Japanese American Exclusion Memorial and the Waypoint Park on Bainbridge Island. In designing the gorilla exhibit and the elephant house at Seattle's Woodland Park Zoo, Mr. Jones' unique approach pioneered a movement to design more natural habitats for zoo animals.

Mr. Jones' design philosophy is deeply rooted in his Cherokee-Choctaw ancestors. Johnpaul Jones' projects have demonstrated an ingrained respect for the natural world and native landscapes and for enhancing awareness of the indigenous people, cultures, and the communities in which they inhabit. This philosophy is apparent in his celebrated design of the Smithsonian's National Museum of the American Indian in Washington, DC.

Mr. Jones has received multiple honors and awards for his work including the American Institute of Architects Seattle Medal, the Executive Excellence Award from the American Indian Science and Engineering Society, and the Distinguished Service Award from the University of Oregon, his alma mater.

Most recently, President Barack Obama honored Johnpaul Jones with a National Humanities Medal. The National Humanities Medal, introduced in 1997, honors individuals and groups whose work has enhanced our nation's understanding of the humanities and expanded our citizens' involvement with history, literature, languages, philosophy, and other humanities subjects. Johnpaul Jones, the first architect to be honored with this award, was one of ten who received the 2013 National Humanities Medal for his work in broadening our nation's cultural understanding and awareness through his architecture.

Mr. Speaker, I would like to close by again applauding Johnpaul Jones for his environmentally conscious and culturally reverent architecture and for his commitment to our community. From our nation's capital to the beautiful city of Bainbridge Island, Johnpaul's work preserves our nation's stories for generations to come. I am honored to recognize Johnpaul Jones today in the United States Congress.

HONORING FRANKLIN COUNTY HIGH SCHOOL'S NATIONAL DEFENSE CADET CORPS

HON. SCOTT DesJARLAIS

OF TENNESSEE

IN THE HOUSE OF REPRESENTATIVES

Friday, August 1, 2014

Mr. DESJARLAIS. Mr. Speaker, I rise today to commend the hard work and dedication of students in Tennessee's Fourth Congressional District who participate in Franklin County High School's National Defense Cadet Corps in Winchester.

Once again, these students were Senior National Finalists in the 34th Annual National Energy Education Development Project's Youth Awards.

They were presented the award in Washington, DC, on June 23, 2014. The cadets were recognized for their excellence in environmental education. This year's projects included studying the feasibility of Compressed

Natural Gas as an alternate energy source. The Elk River Public Utility District contributed by providing benefits and a demonstration including test driving of their CNG vehicles. The students increased their knowledge on solar power production by visiting the Duck River Electric Municipal Cooperative solar farm.

One of their most unique recycling efforts not only saved 22 trees but promoted literacy among elementary school children. The cadets sponsored a community wide book drive called "Ride for Reading." This is a national effort to deliver free books to Title I schools. The Cadet Corps delivered 1,472 books to Cowan Elementary School by bicycle. Every elementary student received five free books. The cadets once again recycled cooking oil that was turned into biodiesel by Winchester Utilities for city equipment. The cadets were recognized on the field during a University of Tennessee home football game and awarded a \$1,000 grant for their recycling efforts as part of the Good Sports Always Recycle program.

These are just some of the projects these energetic students undertook to make an impact on their community and promote environmental education this school year. It is always a pleasure to see our young people are civically engaged. Each student's individual drive has led them to great accomplishments. I want to thank them for their dedication and wish them the best as they continue in their educational pursuits. I am proud to represent these fine young people and their friends and families in the United States Congress.

CONGRATULATING FOUR-TIME STATE CHAMPIONS RILEY RAMBO AND TAYLOR LYCKMAN

HON. K. MICHAEL CONAWAY

OF TEXAS

IN THE HOUSE OF REPRESENTATIVES

Friday, August 1, 2014

Mr. CONAWAY. Mr. Speaker, I rise today to congratulate Riley Rambo and Taylor Lyckman from Menard, Texas on their historic 1A Mixed Doubles Tennis State Championship, on April 30th—a noteworthy accomplishment in and of itself.

While any state championship is impressive, this duo made U-I-L history by being the first mixed doubles team to win the title four years running.

Over the course of their high school careers, they have exemplified hard work, perseverance, and tenacity; and have become hometown heroes because of it. They are role models inspiring the younger generations of Menard.

Riley and Taylor are not your normal doubles team. They are not just teammates or friends; they are cousins. They are family. They have grown up together, competed together, and won together. I can only imagine the overwhelming excitement and pride their entire family feels from this accomplishment. I encourage them to savor their historic feat and wish them all the best in their bright futures.

Again, I congratulate Mr. Rambo and Ms. Lyckman on their historic fourth Mixed Doubles Tennis State Championship title.

HONORING RALPH FERTIG

HON. LOIS CAPPS

OF CALIFORNIA

IN THE HOUSE OF REPRESENTATIVES

Friday, August 1, 2014

Mrs. CAPPS. Mr. Speaker, today I rise to honor the memory of Ralph Fertig from Santa Barbara County, who passed away suddenly on July 18, 2014.

Ralph was a devoted community leader and advocate for sustainable transportation in the Santa Barbara community. He was also the perennial renaissance man, having graduated from Penn State in 1961 with a degree in art and architecture before studying painting and ceramics at Cranbrook Academy of Art, earning a master's in mathematics from the University of Michigan, studying photography with Ansel Adams, and finally earning a second master's degree in photography from the Chicago Institute of Design in 1970.

Ralph came to the Santa Barbara community in the early 1980s to work on graphics and marketing for a computer communications company. It was during those early days in Santa Barbara that Ralph rediscovered his love of bicycling and began commuting by bike to work every day.

It wasn't long before Ralph became known in Santa Barbara as an effective civil advocate for the bike community. In 1991, he joined a group of local cyclists to form a group eventually known as the Santa Barbara Bicycle Coalition to advocate for the improvement of road and trail conditions. He also began publishing a monthly newsletter that, for the next 20 years, would be the voice of the bicycle community and a powerful force on behalf of pedestrian and bicycle safety.

Ralph made it his mission to attend every local transportation planning meeting to bear witness to the need for more space on the roads for bicycles, and he did this with perseverance, intellectual honesty, and respect. Ralph served as a member of the Santa Barbara Bicycle Coalition for more than 20 years, attending many bicycling conferences all over North America. In 1998, Ralph single-handedly brought the Pro Bike/Pro Walk conference to Santa Barbara, attracting 540 participants from around the country. He was involved with crafting the City of Santa Barbara's Bicycle Master Plan, Pedestrian Master Plan, and a regional Bikeway Signage Program.

Ralph was keenly aware of how transportation projects impact environmental quality and social equity. In 2010 the Coalition for Sustainable Transportation, or COAST, recognized Ralph with its biggest honor, the Barry Siegel Award, for his contributions to Santa Barbara County in the field of sustainable transportation.

I offer my most heartfelt condolences to Ralph's friends and family, and ask my colleagues to join me in honoring this exemplary American and Santa Barbara County resident.

HONORING ROSS ERWIN HANNA

HON. JOHN GARAMENDI

OF CALIFORNIA

IN THE HOUSE OF REPRESENTATIVES

Friday, August 1, 2014

Mr. GARAMENDI. Mr. Speaker, it brings me sadness and honor to pay final tribute to Ross

Erwin Hanna. Ross passed peacefully on Tuesday, June 10, 2014 after 91 years of life well lived.

Ross was born in San Francisco, CA, on October 20, 1922 as the youngest of six children to Tom and Wanda Hanna. Ross grew up in the Alhambra Valley with his four brothers and sister. Ross spent his childhood roaming the hills around his home and enjoyed spending summers in the Sierras. Ross's love of the outdoors was a legacy from his grandfather, naturalist John Muir.

Soon after graduating from Alhambra High School in Martinez, Pearl Harbor was bombed and Ross enlisted in the California Coast Guard where he served in numerous landings in the South Pacific. WWII sent him to the Pacific for four years, but built friendships that continued to grow for seven decades.

After the war, he went to Stockton, CA to attend the College of the Pacific (now University of the Pacific) where he graduated with a degree in business, and was a fraternity man at Alpha Kappa Phi Fraternity. Music was a major part of Ross's life and he led the Ross Hanna Orchestra during college. There Ross met a young Gladys Ann Stoeven who would later become his bride. Ross and Gladys married in San Mateo, CA in June of 1948.

Over the next 66 years the two of them had much to celebrate. A year to the day after they were married, they welcomed their first son, Hal. They moved to Dixon soon after his birth and two years later welcomed son Michael. Four years after their two boys, they welcomed a sweet daughter, Lynne. Ross and Gladys enjoyed raising their children in Dixon.

Ross imparted his love for nature to all of his children and grandchildren. Pack trips in the mountains, fishing in streams and lakes, hiking and enjoying nature are all a part of their memories. Ross left this life to join his parents Tom and Wanda Hanna, brothers Strent, John, Dick and Bob, his sister Jean and numerous family and friends who have gone before him. Ross is survived by his loving wife Gladys of 66 years; son Hal and wife Kathleen, son Michael Muir and daughter Lynne Hanna-Lincoln; grandchildren Tim Hanna and wife Jamie, Liz Fuller and husband James, Allison Theubet and husband Jerry and Mei-Lin Hanna. Ross lived to see eight great-grandchildren join his family; Kilian, Stephen, Natalie, Timmy, Gabby and Kolbe Theubet and Ross and Matthew Fuller. Ross will be missed by immeasurable friends and family members, but his love and music will play in their hearts forever.

HONORING THE LIFE AND SERVICE OF MAYOR GEORGE VUKOVICH

HON. TIM RYAN

OF OHIO

IN THE HOUSE OF REPRESENTATIVES

Friday, August 1, 2014

Mr. RYAN of Ohio. Mr. Speaker, I rise today to remember and honor the life of former Mayor George Vukovich of Youngstown, Ohio who passed away on Monday, July 28, 2014 at the tender age of 87 with his wife of 64 years, Helen, by his side. He was a dedicated and compassionate public servant, serving for over 20 years as the Seventh Ward Councilman, Clerk of Youngstown Municipal Court, and Mayor of Youngstown.

When I first started my political career I was lucky enough to have spent time with George. He always had great stories to tell of the good old days. But more importantly he always gave good advice and counsel. I will always remember how much he talked about and treasured his family, especially his grandkids. I really enjoyed our time together.

Mayor Vukovich served as mayor from 1979–1983 and oversaw the city during one of its darkest hours. Although Youngstown was suffering from massive job loss due to the decline of the steel industry, Mayor Vukovich was able to hold the city together during one of its most trying seasons. He was a proud veteran of the United States Army who loved his community. Mayor Vukovich was also active in the Youngstown Democratic Party, a member of the Catholic War Veterans, the Croation Fraternal Union (Lodge 185, Campbell), and St. Angela Merici Parish (Sacred Heart of Jesus). He treasured spending time with his family, as well as hosting visits from loved ones, especially his grandchildren who were his greatest joy. He and his wife spent many winters in Florida during retirement where they enjoyed boating and long walks on the beach.

Mayor Vukovich is survived by his beloved wife Helen; his daughters, Carol and Sonia; grandchildren, Carrie, Michael, Carly, and Katie; brothers Peter and Henry, an abundance of loved ones and friends. George has been preceded in death by his loving parents, sisters Ann and Helen, as well as his brothers Jack, John, and Thomas. I am proud to honor the life of Mayor George Vukovich. The city of Youngstown is forever indebted to honorable years of his service. Youngstown is a much better place to call home because of his valiant work. My deepest condolences go out to his family and close friends. George will be deeply missed but his courageous spirit will forever live on through the hearts and lives he has touched.

OUR UNCONSCIONABLE NATIONAL DEBT

HON. MIKE COFFMAN

OF COLORADO

IN THE HOUSE OF REPRESENTATIVES

Friday, August 1, 2014

Mr. COFFMAN. Mr. Speaker, on January 20, 2009, the day President Obama took office, the national debt was \$10,626,877,048,913.08.

Today, it is \$17,618,599,653,160.19. We've added \$6,991,722,604,247.11 to our debt in 5 years. This is over \$6.9 trillion in debt our nation, our economy, and our children could have avoided with a balanced budget amendment.

FIRST RARE PEDIATRIC DISEASE PRIORITY REVIEW VOUCHER SOLD

HON. MICHAEL T. MCCAUL

OF TEXAS

IN THE HOUSE OF REPRESENTATIVES

Friday, August 1, 2014

Mr. MCCAUL. Mr. Speaker, across this nation tens of thousands of children live with rare pediatric diseases, such as childhood cancers,

that threatens their bright futures. As the chairman of the Childhood Cancer Caucus, I have personally met with dozens of children and their families who are desperate for treatments.

Since the 1980s, only one new treatment has been developed for children with cancer. Sadly, for many other rare pediatric diseases, no Food and Drug Administration (FDA) approved treatment exists at all. That is why I introduced the Creating Hope Act in 2011, to create an incentive for drug companies to develop new treatments for children with rare pediatric diseases, such as pediatric cancers.

Without any cost to the taxpayer, the Creating Hope Act established a priority review voucher (PRV) for rare pediatric diseases as Sec. 908 of the Food and Drug Administration Safety and Innovation Act. As an incentive for developing a new rare pediatric disease treatment, a company can be awarded a PRV by the FDA. The voucher entitles a company to a priority six month review of another new drug application that would otherwise be reviewed under the FDA's standard ten month review period. Companies can also choose to sell or transfer the voucher to another drug sponsor.

On Valentine's Day this year the first rare pediatric disease PRV was awarded to BioMarin for Vimizim to treat Morquio A Syndrome. There are fewer than 800 kids in the United States with Morquio A Syndrome. Vimizim will help children living with this terrible disease to live a longer and healthier life. That's what every kid should have.

And just this week, BioMarin sold its voucher to Regeneron Pharmaceuticals and Sanofi for \$67.5 million. This will allow BioMarin to reinvest their new earnings in even more products to treat rare and ultra-rare diseases. And it will allow Regeneron Pharmaceuticals and Sanofi to speed up FDA review of Alirocumab, an experimental drug designed to lower low-density lipoprotein cholesterol in patients who have previously tried other treatments. This is a win-win for the companies, but best of all this will benefit patients.

Mr. Speaker, I believe this news demonstrates the value of this important program. As Dr. Ned Braunstein, Regeneron's Vice President for Regulatory Affairs, said after his company announced that it was buying BioMarin's voucher, the "decision to acquire and leverage the voucher is clear evidence that this program is a valuable incentive for biopharmaceutical companies."

Many people deserve credit for helping to make the Creating Hope Act a reality. Congressman FRED UPTON, the Chairman of the Energy and Commerce Committee, Congressman G.K. BUTTERFIELD, Dr. MICHAEL BURGESS, the Vice Chair of the Energy and Commerce Subcommittee on Health, and former Congresswoman Sue Myrick, were all tremendous champions of this law. So too were many countless advocates, but most of all Nancy Goodman. A mother and an advocate, Nancy is the founder and executive director of Kids V Cancer, which is fighting to change the landscape of pediatric research.

More children deserve life-saving treatments which is why I hope to work with my colleagues to make the rare pediatric disease Priority Review Voucher program permanent. As a father I can think of nothing more important than investing in our children's futures.
